UTA TO UKG PRO WFM MIGRATION

The Start Of Something Better

Our Proven Migration Methodology

Discovery & Scoping

We assess your existing UTA environment, including interfaces, customizations, labor rules, and business processes to ensure nothing is missed.

Data Extraction & Translation

We extract operational UTA data and translate it to align with UKG Pro WFM's structure, ensuring full compliance, integrity, and usability.

Configuration & Process Mapping

Legacy pay rules and workflows are reimagined to take full advantage of UKG Pro WFM functionality, ensuring continuity while modernizing operations.

Deployment & Training

From user training to change management, our team supports every aspect of go-live readiness for a smooth transition and strong end-user adoption.

Go-Live

Go-live marks the successful launch of your new system, with post-go-live support to make sure your team feels confident and supported every step of the way.

Sunsets don't signal the end. They mark the start of something **BETTER**. Something smarter, faster, and built to last. **Covalence has spent 25+ years making UTA work for hundreds of organizations.** That deep expertise gives us an edge when it comes to migration to UKG Pro WFM. We know what to avoid, what to streamline, and how to set you up for long-term success. The start of something better begins with a trusted partner. **Make your migration simple with Covalence Consulting.**
